

# **SCEPTER** PRESS RELEASE

FOR IMMEDIATE RELEASE 1-26-2013

It is with great pleasure that we announce exciting Scepter news. Since inception in 1987, when brothers **Jeff and Joe Kirby** first launched **Scepter** in **Wichita, Kansas**, the band has remained an independent recording artist.

With the recent explosion of interest with **Scepter's** latest release, ***Now and Again***, we would like to officially announce that **Scepter** has joined forces and is now a dual singed act in a partnership with **Infested Records** ([www.infestedrecords.com](http://www.infestedrecords.com)) and will be the first act with **Critical Mass Music** (<http://critical-mass-music.blogspot.com>).

We're extremely excited to be in this partnership, as both labels share the same musical drive and business ethics that we believe in as a band. **Infested Records** and **Critical Mass Music** have the same passion and drive we need to take **Scepter** to the next level of greatness.

Throughout the band's history, **Scepter** has released several independent albums including *Depletion of Time* (1990), *Three* (1992), *Humerus* (1994), *Eat to the Feet* (1998), *Scepterated At Birth* (2001), *It's The Gettin' Up That Gets Ya* (2002), *Seven By Three* (2007), *Point of Impact* (2008) and the latest release, ***Now and Again***, that illustrates the bands years of influences, roadworthy experience, and sound geared for today's diverse audience who love a mix of hard rock, mainstream, alternative and punk... the SSS "Scepter Secret Sauce".

Please join us, Jeff, Joe, and Mank in celebrating an exciting day of making music history as we join forces with **Infested Records / Critical Mass Music**.
